

\*\*\*\* PROFS note for HREIF 3 Mar 1993 07:40 Page 1 of 1

From: CPURCELL--VUS0212A  
To: HREIF --VCH0021A Helmut Reif

Date and time 03/02/93 14:43:24

FROM: cpurcell  
Subject: Phone call w/ Lister  
Helmut:

It was good to see you last week. By all reports the conference was quite successful. I had hoped that Chuck Lister would be available for more time but as he was not, we should try to get together via phone later this week to catch up on a few items. First, the upcoming european consultants meeting. we should probably go over what it is we'd like to cover at that meeting (progress in the planning and preparation of conferences, any recruiting efforts, individuals expected to participate at conferences). In addition, I am sending you some notes from Mayada Logue regarding an International ASHRAE committee we should try to get involved in. We should probably also discuss the proposal Chuck made some time ago to get someone to do a good european review of EPA science as well as Gerard's inquiry into a German review. All of these and more are likely to be discussed in Lausanne later this month] In addition, did you ever hear from Tom Borelli regarding any interest in the "junk science" idea? Chuck is due back tomorrow, perhaps Friday we can all talk. What is your schedule like?
